

Splendors

Exciting South America has many natural wonders, biodiversity, rich cultures and friendly people. You can certainly explore one country, but consider combining multiple countries for a richer experience.

For Andean culture, Peru and Bolivia are a natural duo with Lake Titicaca as the border crossing. For wine lovers, link Chile's Colchagua Valley with Mendoza, Argentina to sample signature varietals. Soft adventure awaits down in Patagonia where you can visit both Torres del Paine National Park in Chile and the amazing Perito Moreno Glacier near Calafate, Argentina. These are just a few of the possibilities for multi-country travel. You may not be able to see all of South America in one visit, but we will design the perfect trip for you based on your time and budget.

Old town Cartagena

“South America has something for everyone - the entire continent screams authentic, exotic and inviting. My first trip to Peru still ranks as one of the most awe-inspiring experiences ever. Strolling the Inca temples and watching the sun drop over the mountains of Machu Picchu are an experience that can't be matched. The Galapagos Islands touched my soul. The trust and curiosity that the wildlife show toward humans is only matched by the loving pride that Ecuadorians hold for protecting their wonder of nature. Cartagena, the jewel of our newest destination Colombia, is a magical immersion into colonial history, stunning architecture and endless evenings that will leave you dreaming of your return visit.”
