Escape to central Bali where dramatic volcanoes loom over lush fields, stunning crater lakes and mystical temples.

Early morning you will set off from the hotel in your convertible Volkswagen and drive to Yeh Pulu to see a 80 foot-long series of fourteenth century rock-cut carvings. Located at the bottom of a lush green valley can be found the 11th century temple and funeral complex of Gunung Kawi, one of Bali's oldest monuments. Walk down the stairs to see the 10 rock-cut shrines carved out of the surrounding rocks.

Your next stop is at Tirta Empul with its holy spring waters where every Balinese Hindu will bathe at least once a year for purification. Continue to Kintamani set around the rim of the Gunung Batur crater. Look out over Bali's most active volcano, Mount Batur, which soars over 5,900 feet into the sky. In the center is a beautiful turquoise-green lake, the largest lake of the island.

After lunch in a local restaurant you'll drive down the scenic road to the bottom of the crater and take a walk through the lava fields as your guide tells you about the volcanoes and tectonic activity on Bali. On the way back south stop in Tegalalang to enjoy a coffee with unparalleled views over the famous emerald-green rice terraces.
