HONG KONG:

After breakfast, meet your guide to see all the highlights of Hong Kong Island on this group orientation tour. It's a great way to get to know Hong Kong and its famous landmarks and history. Ride on the world's steepest funicular railway, the **Peak Tram**! Pulled by steel cables, the tram climbs 1,200 feet and is so steep that the buildings you pass look like they're leaning. Looking down from The Peak, you'll be amazed by the spectacular view of the surrounding city skyline, peaceful green hills, and the world-famous **Victoria Harbour** and Kowloon. Next you will visit **Aberdeen**, the famous fishing village where you'll see Hong Kong's junk-dwelling floating community, still very much a part of Hong Kong life. An optional 15-20 minutes sampan ride* can be arranged into the typhoon shelter for a close-up view of waterborne life. You'll end your tour passing through picturesque Repulse Bay on your way to **Stanley**, a popular open air market town on the south side of Hong Kong Island. It's a favorite with locals and expats as well as tourists. You'll have time to peruse Stanley's relaxed ambiance and markets, and plan on some good-natured bargaining for a few souvenirs to take home. Afterwards, you can continue exploring independently or return to your hotel.

*For an additional fee.
