## CITY OF HISTORY

### MAJOR SITES

The undeclared capital of the Holy Roman Empire, the second largest city in Bavaria, and arguably the center of the German Renaissance - Nuremberg is where German history comes to life. Along the River Pegnitz, Nuremberg's walled Old Town stretches across the river with several charming bridges connecting the town. Within these walls lay the mighty Imperial Castle, contemporary art housed in the New Museum, Germany's largest museum of cultural history at the Germanic National Museum, and the ornate magnificence of St. Lorenz Church. Although much of it was destroyed after World War II, the city was rebuilt piece-by-piece, restoring the city's historic grandeur while keeping an eye on the future.

Nuremberg's Old Town is also full of gorgeous statues and fountains, including the aptly named "Beautiful Fountain". One of Germany's most famous artists, Albrecht Dürer, was born in Nuremberg and his timber-framed house, the oldest surviving artist's house in Northern Europe, has been turned into a museum featuring his work. With over 54 museums in and around town, Nuremberg is a fantastic destination for armchair historians, art aficionados, or anyone wanting to learn more about traditional German heritage.

### CITY HIGHLIGHTS

Beyond the historic sights, Nuremberg is well known for three things: sausage, gingerbread, and handmade toys. The Nürnberger Bratwurst is the city's special delicacy – tiny but tasty roasted pork sausages that can be found throughout the city. What better place to enjoy a bratwurst than at a local beer garden?

The city is a must-visit for culinary travelers, as Nuremberg also specializes in genuine German gingerbread and locally brewed beer. Along with a long tradition of hand-crafted toys, these cultural delights are best enjoyed during the winter holidays at the city's Christkindlesmarkt, Germany's largest Christmas Market, and gingerbread capital of the world!

Dating back to the 16th-century, the Nuremberg Christmas Market is a fairy tale come to life, taking place on the cobblestone streets of the city's Old Town. With a tradition of hand-crafted toys stretching back over 600 years, the Nuremberg Toy Museum presents the history of toys from antiquity into the modern day, sure to make just about anyone feel like a kid again.

# 'BAMBERG'

Bamberg awakens the romance of a small Bavarian town, a UNESCO World heritage site that escaped the destruction of war. Colorful houses drape the many hills, complete with beautiful gardens. The most famous site in the town is the Old Town Hall, built in the middle of the River Regnitz and adorned with intricate frescoes. On one of the hills above the city, the mighty Bamberg Cathedral stands tall with four towers. Across the street from the cathedral is the palatial Neue Residenz, once occupied by the prince-bishops, where a gallery for the Bavarian State Painting Collection is housed along with the beautiful Rosengarten. The tallest of Bamberg's hills lays the fortress of Altenburg, a castle dating back to at least the 12th-century.

## SMOKED BEER

Home to 9 breweries, Bamberg is best known for its unique smoked beer. Following this centuries-old craft, the smoky flavor comes from the malt being roasted over a beech wood fire instead of drying the malt in an oven, giving the beer a distinctive taste that is uniquely Bamberg.

# 'BAYREUTH'

## SEASONAL HIGHLIGHTS

Once a small town, the Franconian city of Bayreuth grew considerably when Margrave Christian moved his residence to the city in the 18th-century. She commissioned the ornate Margravial Operahouse, a splendid example of Baroque architecture and now a UNESCO World Heritage Site. This patronage of the arts attracted the famous composer Richard Wagner, who lived in Bayreuth until his death. The city's relationship with Wagner is inextricable at this point, as every summer Wagner's operas are performed during the month-long Bayreuth Festival that continues to draw thousands of visitors each year.

## PRIVATE BREWER TOUR

Here, traditions thrive amongst the communities of the area. From centuries-old customs such as Oberammergau's Passion Play and the local handicrafts passed down from one generation to the next, culture acts as an active part of everyone's identity.

The Ammergau Alps offer countless hiking and biking opportunities with rewarding views, many of which are ideal for families with children.

For a unique experience in the area, visit the imposing Ettal Abbey. Built in 1330, it is an architectural and artistic masterpiece with stunning frescoes and Baroque motifs.

This castle-like monastery is not only self sufficient, but earnings and donations support a tuition-free school specializing in humanities and modern languages.

## OBERAMMERGAU

### PASSION PLAY

To escape an agonizing plague, the people of Oberammergau swore an oath that would become one of the most cherished traditions. The Passion Play has been performed every 10 years as a solemn gratitude for escaping the impending grasp of the black plague. Today, more than 2000 people – nearly all residents of Oberammergau – will participate in the performance, a 5-hour musical drama depicting the life of Jesus from the entry in Jerusalem to crucifixion and resurrection.

### LINDERHOF CASTLE

Ludwig II clearly had a great admiration for grand palaces and royalty, as he built multiple palaces across the Bavarian Alps. The only one that he lived to see completed, however, was Linderhof Palace – the smallest of the three. Influenced by the rococo style of Versailles, this splendid palace is replete with artistic ornamentation throughout many elements of the palace. From the dining room to the Hall of Mirrors, from the surreal man-made cave of the Venus Grotto to the Peacock Throne of the Moorish Kiosk, Linderhof is an architectural and artistic masterpiece.

# 'FÜSSEN'

Boasting over 2000 years of history, Füssen is a delightful stop on the Romantic Road with an impeccably preserved Old Town. On the shores of the Lech River, backed by a stunning alpine panorama, this lovely town escaped the wrath of war, preserving the timeless character acquired throughout centuries. To this day, Füssen awakens the aristocratic nostalgia of royal extravagance and architectural beauty. A gorgeous display of medieval architecture, Baroque churches, and quiet streets echoing with the footsteps of passerby, this destination is but a page in the fairytale named Bavaria. To fully experience the poetic beauty of this Bavarian region, travelers must step outside of the Altstadt, where an idyllic scene unfolds in its natural surroundings. Imposing mountain ranges stand tall in the distance and lush forests cover the subalpine hills with grandiose castles standing at the top.

It is here that Neuschwanstein Castle – one of the most famous in the world – stands testament to the royal grandeur of past centuries. Along with Hohenschwangau, these two architectural feats contribute to the far-reaching appeal of southern Bavaria.

## WALKING TOURS

Lose yourself amidst the Altstadt's quiet streets and wander in search of local gems. Stop by the magnificent St. Mang Abbey, the medieval Hohes Schloss (High Castle), and many other historical landmarks, each telling a different tale of the city's complex history.

## NEUSCHWANSTEIN CASTLE

One of the most famous castles in the world, Neuschwanstein sits atop a cliff nestled in the Alps, overlooking Bavaria below. It was here that King Ludwig II built his fairy-tale castle, embodying the romanticism of the era and emulating the style of the old German knights' castles. Inspired by the mythical music of Richard Wagner, many of the rooms' borders depict operas written by the legendary German composer.

Neuschwanstein incorporates an eclectic mix of Romanesque architecture with Gothic and Byzantine stylings, especially visible within the throne room. As inspired as Ludwig II was, it is unlikely that he could have ever predicted how influential his fairy-tale castle would be in the modern era, as it was likely a major inspiration for the iconic Disney logo.

# 'HERRENCHIEMSEE'

## FIT FOR A KING

Situated on Lake Chiemsee, Herreninsel ("Gentlemen's island") is a gorgeous island housing a complex of royal buildings and gardens. Purchased by King Ludwig II, it has been transformed into a stately retreat with a new castle following the Versailles model.

An example of monarchic grandeur, walk through the lavish quarters of the Neues Schloss and travel back to the glamorous times of royals. Surrounded by the calm waters of the lake, this noble retreat combines Bavaria's peace and imperial extravagance.

## GARDEN & FOUNTAINS

Having been conceived as a Bavarian Versailles in honor of France's Louis XIV, Herrenchiemsee Palace features beautiful formal gardens famously populated by fountains and statues that mirror the classical design style of the French while incorporating distinct fantastic romanticism elements favored by King Ludwig II.

## KING LUDWIG II MUSEUM

Occupying twelve modernized rooms in the south wing of Herrenchiemsee Palace, this museum documents the famous Swan King's short yet eventful life through a collection of paintings, historic photographs, and many other showpieces. Museum highlights include exquisite furniture that were originally from the Munich Residenz and Linderhof Palace, elaborately handcrafted items that were commissioned by the king, and notable documents depicting Ludwig II's strong patronage on classical music and architecture.
